

DIGIDELIVERY INSTRUCTIONS

Elastic Mix Studios is proud to provide our clients with the DigiDelivery™ Worldwide Data Transfer system. DigiDelivery* is faster, more secure, and more reliable than FTP or overnight deliveries. Simply drag and drop files to send a delivery, or click a link in an e-mail to receive a delivery — no need for recipients to enter IP addresses, usernames, or passwords.

Military-grade encryption guarantees the security of your files. DigiDelivery saves you time and money by avoiding FedEx costs, travel expenses, and missed deliveries. More importantly it opens possibilities that never existed before.

HOW CAN I RECEIVE A FILE FROM ELASTIC MIX?

Simply check your e-mail and click on the encrypted link to begin downloading.

HOW CAN I SEND A FILE TO ELASTIC MIX?

To deliver files to Elastic Mix is very easy but you must have the DigiDelivery client installed:

- To download the client software point your browser to:

<http://www.digidesign.com/digidelivery/clients>

- Install the DigiDelivery application
- Enter the following account information:

Host: 72.148.131.30

Username: guest

Password: guest

- Follow the screen instructions to begin your delivery.
- On the final step remember to click on “Accounts” and select “Elastic Mix”
- Enjoy and thank you for counting on Elastic Mix.

CAN I SEND A FILE TO A THIRD PARTY?

Absolutely, to deliver files to a third party is very easy just follow the same procedure listed above and we will forward an encrypted key to any email address you wish. Just let us know in advance by dropping us an email at: info@elasticmix.com and we will be happy to forward the link to your recipient.
